

SOLUTIONS

for the future of
Agriculture

The Stock-Terra Company manufactures a complete line of corrugated animal bedding material. Each minimal dust, highly absorbent, corrugated bedding solution has been extensively field-tested and is engineered to exceed the rigorous demands of bedding materials.

The Stock-Terra Company can assist you in your search for sound management solutions whether you raise sheep, alpacas, llamas, goats, horses, swine, dogs, beef cattle, dairy cattle, own pets, or operate an event center or county fair.

The Stock-Terra Company uses select grades of new, never used, reject OCC in all of its bedding solution products. Stock material is secured direct from corrugated manufacturers. Unique manufacturing processes and strict quality control procedures are followed in building each bedding solution. Size manipulation is just one component of the process.

Corrugated packaging material is environmentally sound as all colorings consist of food grade dye, and glues used to fix the flutes are corn starch based. The harsh compounds found in raw wood are removed during the paper making process. Our bedding solutions provide super absorbency, high resiliency, minimal dust, rapid decomposition, and superior comfort.

by Stock-Terra
manufactured as a general use animal bedding

Versi-Bed Animal Bedding contains minimal dust, is highly absorbent, and environmentally sound. Versi-Bed provides a soft, safe, and comfortable environment for your animal. Versi-Bed, it's "Versatile by Design."

Versi-Bed is a bedding material of a size that fits most applications. The difference is, the other brands we offer, were designed with our customers for specific applications. Versi-Bed bridges the gap between all our bedding brands.

Versi-Bed is versatile; it will meet the needs of dogs, caged birds, reptiles, cats, cattle, swine, laboratory animals, guinea pigs, hamsters, and zoo animals. Virtually any animal will benefit from Versi-Bed Animal Bedding.

CAMELID & SHEEP
BEDDING
Acclaim

*by Stock-Terra
manufactured for fiber-producing animals*

Bedding material that adheres to wool or fiber can create a dilemma for producers of these valuable products. Acclaim Camelid & Sheep Bedding is designed to solve that problem. It works because it is “Big and Clean.” Acclaim is highly absorbent, environmentally sound, and is non palatable.

Alpaca, llama, and sheep owners use Acclaim because they know what they need – clean and healthy animals. Acclaim will not get tangled, it provides a soft bed, and it helps keep dust exposure to a minimum.

Ovation
HORSE BEDDING

*by Stock-Terra
manufactured specifically for horses*

Looking for a tough bedding material that contains minimal dust, is highly absorbent, and environmentally sound? Ovation Horse Bedding is the horse bedding you have been searching for; it’s “Different, yet Sensible.” After experiencing the results, you will applaud its many unique capabilities.

Horse owners of all disciplines are using Ovation Horse Bedding, with great success. Users range from horse enthusiasts with one or two animals to the most demanding horse professional. Ovation Horse Bedding is designed to deliver quality performance and satisfaction for three key production areas: horse stall environment, manure management, and the stable manager.

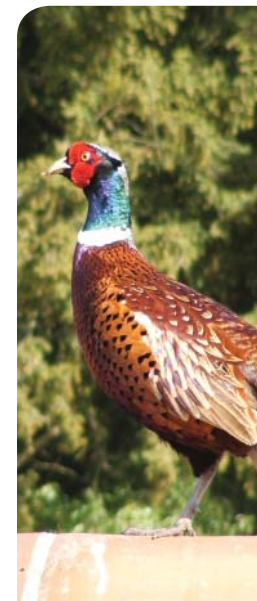

POULTRY & GAME BIRD
BEDDING
Extol

*by Stock-Terra
manufactured specifically for feathered species*

Extol Poultry and Game Bird Bedding “Starts ‘em Strong” and keeps your bottom-line strong as well. Extol has been proven to be an ideal bedding material for the brooding phase. Independent studies have shown that using Extol for this phase of production yields increased gain, maximizes feed conversion, and minimizes mortality leaving more of everything for you.

Extol contains minimal dust, is highly absorbent, environmentally sound, and non palatable. In addition caking is minimized and flips easily.

Faced with some of the most complex production, environmental, and management issues, growers demand an extra edge from all the products they use. Extol costs more than standard quality bulk shavings, but it outperforms them all.

Many of our customers comment on how simple the concept is...

They can't believe they didn't think of it first!
